REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: In view of the amendments and in view of the Declaration by Dr. Steven Buchsbaum, the claimed invention is novel and unobvious over the cited prior art of Muddiman, Nakao and Nishikawa. In particular, the declaration provides evidence of a secondary consideration of skepticism of experts as per MPEP 716.05. In this particular situation, the evidence in paragraph three of the declaration that a review by JASON that "concluded it was unlikely that development of the proposed method would be successful" represents very strong evidence of skepticism of experts. Therefore, weighing the power of the declaratory evidence as a secondary consideration in the analysis of obviousness, the conclusion is inescapable that the claims are unobvious over the totality of the prior art and evidence of skepticism by experts. Therefore, the claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
